

WHAT MAKES A 21ST CENTURY LEARNER?

CONCEPTUAL LEARNING

As they deepen their learning, students begin to experiment and combine concepts in innovative ways.

CAREER READINESS

California's core learning Standards prepare our kids for the careers they'll be looking for when they graduate.

INFORMATION TOOLBOX

Learning to find, analyze and combine information in different ways is a key skill for 21st century jobs.

COMMUNICATING IDEAS

Students hone their communication skills through group learning and presentations in which they explain their ideas to others.

SCAFFOLDED SUPPORT

Teachers, parents, and peers are all educational partners. They create the learning environment, introducing new tools and ingredients and inspire new challenges for the students.

TECH TOOLS

Computers, iPads and digital media are tools that provide context to help students learn and think about their information in new ways.
